Main application deadline: March 1.

There is one main admission per year, with [application deadline March 1](#). The application applies to the following academic year. It is possible to apply for a spot in the day-care centres at other times, and in this case the application will be handled along with supplementary admissions throughout the year.

Documentation

All information of relevance to the application must be documented (for instance credits). The applicants have to provide documentation verifying that they are full-time students and members of SiB. Such documentation could be Letter of Acceptance, Transcript of Grades, Faculty Confirmation and a copy of the student semester card.

If the application is submitted before a Letter of Acceptance has been received, the documentation must be sent in later, clearly marked with the child's name and date of birth.

If claiming to be in a group with a given priority, documentation from a medical doctor, pedagogical/psychological counsellor or other officials must accompany the application.

Criteria for admission (may be altered)

Admission is given according to the following priority:

1. Child(ren) with a documented handicap
2. Child(ren) whose mother and/or father have a documented handicap or illness which affect their study situation
3. Child(ren) living with a single parent
4. Child(ren) whose parents are both students
5. Child(ren) of female master degree candidates
6. Other students

Within each group priority is given according to the number of documented credits. Other things being equal, priority is given to children whose siblings are in a day-care centre. One may depart from the established priority in order to obtain an appropriate selection within the group.
